FERC Form 2, Annual Report of Major Natural Gas Companies, & FERC Form 2A, Annual Report of Nonmajor Natural Gas Companies

OMB Control Nos.: 1902-0028 & 1902-0030

Abstract: Pursuant to sections 8, 10 and 14 of the National Gas Act (NGA), (15 U.S.C. 717g-717m, PL. 75-688), the Commission is authorized to make investigations and collect and record data, to prescribe rules and regulations concerning accounts, records and memoranda as necessary or appropriate for purposes of administering the NGA. The Commission includes the filing requirements in 18 CFR Parts 260.1 and 260.2.

The forms provide information concerning a company's past performance. The information is compiled using a standard chart of accounts contained in the Commission's Uniform System of Accounts (USofA).² The forms contain schedules which include a basic set of financial statements: Comparative Balance Sheet, Statement of Income and Retained Earnings, Statement of Cash Flows, and the Statement of Comprehensive Income and Hedging Activities. Supporting schedules containing supplementary information are filed, including revenues and the related quantities of products sold or transported; account balances for various operating and maintenance expenses; selected plant cost data; and other information.

² See 18 CFR Part 201.

The information collected in the forms is used by Commission staff, state regulatory agencies and others in the review of the financial condition of regulated companies. The information is also used in various rate proceedings, industry analyses and in the Commission's audit programs and as appropriate, for the computation of annual charges based on Page 520 of the forms. The Commission provides the information to the public, interveners and all interested parties to assist in the proceedings before the Commission.

Print versions of the Forms 2 and 2A are located on the Commission's website at <http://www.ferc.gov/docs-filing/forms.asp#2>.

Type of Respondent: Each natural gas company whose combined gas transported or stored for a fee exceed 50 million dekatherms in each of the previous three years must file the Form 2. Each natural gas company not meeting the filing threshold for the Form 2 but having total gas sales or volume transactions exceeding 200,000 dekatherms in each of the previous three calendar years must submit the Form 2A.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden for the information collections as:

FERC Form No. 2: Annual Report of Major Natural Gas Companies and FERC Form No. 2A: Annual Report of Nonmajor Natural Gas Companies						
	Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden Hours & Cost Per Response ³ (4)	Total Annual Burden Hours & Total Annual Cost (3)*(4)=(5)	Cost per Respondent (\$) (5)÷(1)

³ The estimates for cost per response are derived using the following formula: Average Burden Hours per Response * \$70.50 per Hour = Average Cost per Response. The hourly cost figure of \$70.50 is the average FERC employee wage plus benefits. We assume that respondents earn at a similar rate.

FERC Form No. 2	92	1	92	1,629 \$114,844.50	149,868 \$10,565,694	\$114,844.50

Assumption of Liabilities**

OMB Control No.: 1902-0082

Abstract: Under Federal Power Act (FPA) section 204, 16 USC 824c, no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issue or assumption of the liability. The Commission issues an order if it finds that such issue or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility, and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and their licensees who submit these applications.

The specific application requirements and filing format are found at 18 CFR Part 34; and 18 CFR sections 131.43 and 131.50. The information is filed electronically.
